CEMENT TILES TECHNICAL SHEET

Pigmented cement tile for different uses.

Sizes:

Tile 20x20x1.6 (pavement)

Tile 20x20x1.4 (lining)

Plinth 20x10x1.6

Composition:

45CPJ Portland cement, white Portland cement type 52.5R,
powdered marble, inorganic pigments Bayferrox Lanxess

(Made in Germany)

UNE-EN 1339 (AENOR, Norms)

Tolerance:

Tests performed in standard tiles 200X200X16mm

Length and Width: + / - 0.3 mm

Thickness: + / - 0.6 mm

Diagonals: + / - 0.2 mm

Edges: + / - 0.2 mm

Slipperiness Index:

Class 2, Rd 2 slipperiness coefficient. Suitable for surfaces wetted with less than 6% slope.

Density:

Tile 20x20x1.6 : 2093 kg / m³
