THE STORY OF THE COLLECTION

Rooted in the ancestral craft of chiseled Zellige, this collection transforms a centuries-old technique into a contemporary language of light, geometry, and matter. Each composition reveals a subtle dialogue between craftsmanship and architecture.

STEPS TO CUSTOMIZE WITH OUR DESIGN STUDIO

At Ateliers Zelij, we craft exclusive, design-led pieces tailored to each project, transforming concepts into exceptional spaces. With Chiseled Collection, each model can be customized both in color and layout, to create a unique pattern that reflects the identity and vision of your project.

- Explore our collections,
- Select your favorite pattern/scheme,
- Choose color(s) from our color chart.

Then, *biensûr!*, reach out and tell us more about your project and we will assist to make it come true. With your inspirations and all details, we will provide a fully customized service, offering tailored and unique recommendations.

MASHA

Inspired by traditional mashrabiya screens, Masha explores the delicate balance between concealment and revelation. Its geometric patterns filter light and texture, evoking the architectural poetry of seeing without being seen.

BLOOM

Inspired by floral ornament, Bloom captures the quiet vitality of nature through carved relief and geometry. The motifs emerge from the surface like traces of growth, balancing refinement with organic expression.

LIZARD

Inspired by an enigmatic and sinuous movement, Lizard explores rhythm through repetition and continuity. Composed of two interlocking motifs, it creates a flowing serpentine pattern that transforms the zellige into a dynamic architectural skin.

MAZA CHAPTER II

Reinterpreted through the ancestral craft of chiseled zellige, Maza gains a new dimension. Its trapezoidal geometry becomes a landscape of light and shadow, where carved facets animate the surface with subtle variations throughout the day. Balancing graphic precision and material depth, the pattern reveals another expression of the same creative language.

ZELLIGE SPECIFICATION SHEET

Project type: Commercial & Residential
Destination : Wall only, general surfaces
Outdoor use: Under restriction, contact us

Description : Zellige is made from 100% natural clay exclusively extracted from Fez carriers, mold at approx. 11 x 11 x 1,2 cm, glazed and fired at approx. 900°C.
Chiseled zellige tile : enamel is taking of after baking to create a pattern.

Fire resistance : Zellige is a non-combustible material and does not contribute to the spread of fire.
Equivalent to Euroclass A1 (EN 13501-1) and ISO 1182 standards - non-flammable, no smoke emission, no dripping.

Technical Characteristics (indicative values)

Material	100% natural Fez clay (terracotta)
Origin	Morocco
Manufacturing	Kiln-fired (double firing in wood oven), hand cut, pre-assembled on rigid panels with Sika® Epoxy Glue
Finish	All colors are glazed, except *unglazed natural*
Density	1.8 - 2.0 g/cm³
Water absorption	8 - 12%
Breaking strength	≥ 800 N (eq. reference EN ISO 10545-4)
Frost resistance	Suitable For indoor & outdoor use down to -5°C

Environmental & Quality Information

Exclusively hand made with natural clay from carriers of Fez Morocco
Glazed with mineral pigments
Contains no VOCs, synthetic additives, or toxic materials
Non-flammable and non-toxic
Fully recyclable
Produced under the official Moroccan Label Zellige de Fès, certifying origin, composition & craftsmanship process

*Trame means a pre-assembled rigid panel

n/a = not applicable

INSTALLATION AND USE

Surface Preparation

Ensure that all supports are healthy and clean, free of irregularities. For wet rooms (shower, basin...), waterproof the surface before tiling.

Zellige Preparation

Before laying, immerse each tile in the water for few minutes and then let them dry for about 15 minutes.

Pre-assembled panels : spray water on the back of the panel to slow down the setting glue.

«Edge to edge» Installation

No spacer ! All our zelliges must be placed «edge to edge» with a minimum possible grout to achieve a uniform, authentic surface after grouting.

Double bonding

Due to the uncalibrated thickness, we recommend double-gluing both support and back of the tile to ensure 10mn adhesive between panel and support.

Grouting

Use a very liquid grout all over the surface to fill all thin joints with it. After grouting, carefully clean the tiles to remove cement veil.

Cleaning and Maintenance

Take care to take off all adhesive spot after installation

hiseled zone will be sealed with solvent-based stain protector, Fila W68 or equivalent.

No specific cleaning instruction
