THE STORY OF THE COLLECTION

Launched in 2015, the Creative Collection reflects a desire to draw from the artistic universe of Samir Mazer and explore new visual languages, generating an infinite range of repetitive geometric forms.

Each pattern is built around the same square unit (10×10 cm), repeated and preassembled according to different layout schemes and colour palettes. This method makes it possible to create contemporary, sensorial surfaces with no material waste.

Conceived as a true ecosystem of composition, the Creative Collection has been regularly enriched with new patterns since its launch.

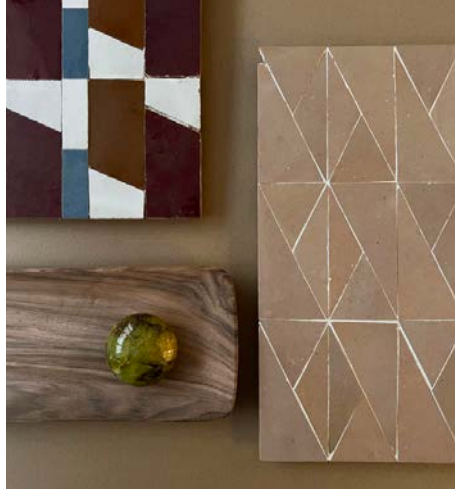

STEPS TO CUSTOMIZE WITH OUR DESIGN STUDIO

At Ateliers Zelij, we craft exclusive, design-led pieces tailored to each project, transforming concepts into exceptional spaces.

With Creative Collection, each model can be customized in both layout and color, to create a unique pattern that reflects the identity and vision of your project.

- Explore our collections,
- Select your favorite pattern/scheme,
- Choose color(s) from our color chart.

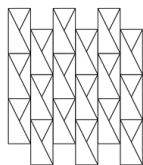

Then, *biensûr!*, reach out and tell us more about your project and we will assist to make it come true. With your inspirations and all details, we will provide a fully customized service, offering tailored and unique recommendations.

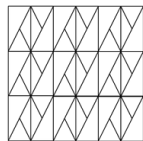

EQUA

Conceived as a crystalline geometry, Equa evokes the precise balance and quiet perfection found in nature's most precious forms. Its faceted lines create a subtle interplay of light and rhythm, giving the surface a sense of depth and movement.

KSIMA

Ksima is a powerful motif: a single geometric sequence repeated to create a delicate balance between strength and fragility. Its bold structure is softened by the rhythm of repetition, revealing a composition that is both grounded and unexpectedly light.

LUMA

Luma finds its origin in nature. Born from a scissor-cut effect, its geometry captures the sensation of light breaking into multiple fragments. Repeated across the surface, the motif unfolds into a kaleidoscopic composition where luminosity and geometry become one.

MAZA

Maza, formerly known as "Trapeze TRC9" is an enigmatic presence within the Creative Collection. Its trapezoidal shapes come together in multiple compositions, creating timeless patterns that reveal new possibilities with each arrangement. Here, the tradition of zellige meets contemporary design in a quiet dialogue – neither one erasing the other, but each enriching the other.

CAÏD

Caïd embodies the transformation of an ancestral craft into a contemporary language. Rooted in ornamental traditions yet freed from their conventions, its geometry opens new possibilities for expression, allowing zellige to evolve beyond heritage and become a medium for creation.

CREATIVE MIX

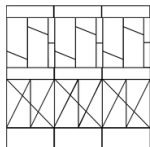

Creative Mix embodies the founding principle of the collection : infinite possibilities born from a single square.

By combining geometries, influences and ornamental references, it reveals the remarkable capacity of a simple module to generate endlessly renewed compositions. A celebration of zellige as a living language of contemporary creation.

ZELLIGE SPECIFICATION SHEET

Project type: Commercial & Residential
 Destination : Floor & Wall, general surfaces; including pool Applications Suitable
 Outdoor use: down to -5°C

Description : Zellige is made from 100% natural clay exclusively extracted from Fez carriers, mold at approx. 11 x 11 x 1,2 cm, glazed and fired at approx. 900°C.

Fire resistance : Zellige is a non-combustible material and does not contribute to the spread of fire. Equivalent to Euroclass A1 (EN 13501-1) and ISO 1182 standards - non-flammable, no smoke emission, no dripping.

Technical Characteristics (indicative values)

Material	100% natural Fez clay (terracotta)
Origin	Morocco
Manufacturing	Kiln-fired (double firing in wood oven), hand cut, pre-assembled on rigid panels with Sika® Epoxy Glue
Finish	All colors are glazed, except *unglazed natural*
Density	1.8 - 2.0 g/cm³
Water absorption	8 - 12%
Breaking strength	≥ 800 N (eq. reference EN ISO 10545-4)
Frost resistance	Suitable For indoor & outdoor use down to -5°C

Environmental & Quality Information

Exclusively hand made with natural clay from carriers of Fez Morocco
 Glazed with mineral pigments
 Contains no VOCs, synthetic additives, or toxic materials
 Non-flammable and non-toxic
 Fully recyclable

Produced under the official Moroccan Label Zellige de Fès, certifying origin, composition & craftsmanship process

TRC Trame* Copyright

TR = Trame*

*Trame means a pre-assembled rigid panel

n/a = not applicable

INSTALLATION AND USE

Surface Preparation

Ensure that all supports are healthy and clean, free of irregularities. For wet rooms (shower, basin...), waterproof the surface before tiling.

Zellige Preparation

Before laying, immerse each tile in the water for few minutes and then let them dry for about 15 minutes.

Pre-assembled panels : spray water on the back of the panel to slow down the setting glue.

«Edge to edge» Installation

No spacer ! All our zelliges must be placed «edge to edge» with a minimum possible grout to achieve a uniform, authentic surface after grouting.

Double bonding

Due to the uncalibrated thickness, we recommend double-gluing both support and back of the tile to ensure 10mn adhesive between panel and support.

Grouting

Use a very liquid grout all over the surface to fill all thin joints with it. After grouting, carefully clean the tiles to remove cement veil.

Maintenance

Enamelled zelliges don't require special precaution.

Only terracotta finish (TC01) will be sealed with solvent-based stain protector, Fila W68 or equivalent.

Outdoor & wet area will require a specific sealer with Lithofin anti-gliss or equivalent.
