Art Work Samli Mazet 2024

THE STORY OF THE COLLECTION

Painted Collection explores the graphic potential of one of the most refined traditions of Fez zellige : hand-painted decoration. Through the female artisan's gesture, the tile becomes a surface for drawing, where colour and line bring a new dimension to the material.

Rooted in this ancestral technique, the collection develops original patterns that transform a decorative craft into a artistic language.

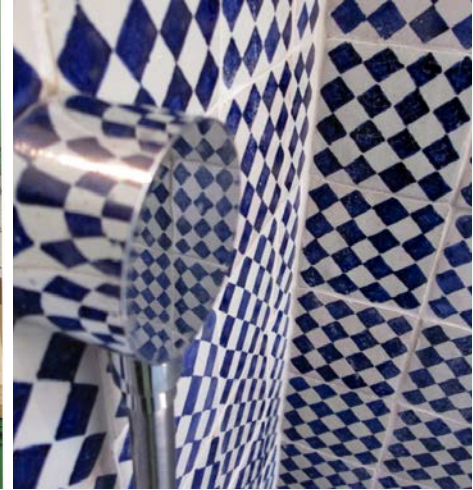

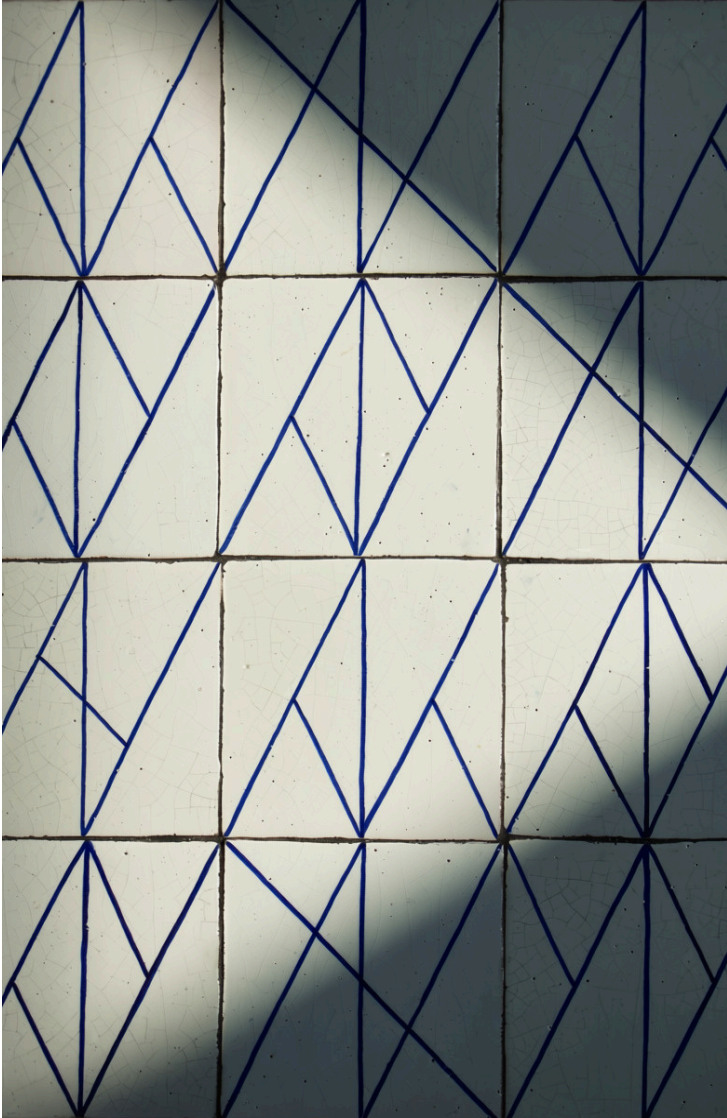

STEPS TO CUSTOMIZE WITH OUR DESIGN STUDIO

At Ateliers Zelij, we craft exclusive, design-led pieces tailored to each project, transforming concepts into exceptional spaces.

With Painted Collection, each model can be customized in both layout and color, to create a unique pattern that reflects the identity and vision of your project.

- Explore our collections,
- Select your favorite pattern/scheme,
- Choose color(s) from our color chart.

Then, *biensûr!*, reach out and tell us more about your project and we will assist to make it come true. With your inspirations and all details, we will provide a fully customized service, offering tailored and unique recommendations.

AZUL

Azul brings together a series of original drawings by Samir Mazer, painted by hand using the traditional blue pigment historically associated with the decorative arts of Fez. Balancing spontaneity and precision, each composition celebrates the enduring dialogue between craftsmanship, drawing and material.

KINESIS

Kinesis explores the expressive potential of the line. Through repetition, variation and optical effects, its compositions generate a subtle sense of movement that animates the surface. The painted gesture becomes a graphic language, transforming zellige into a dynamic field of visual perception.

ZELLIGE SPECIFICATION SHEET

Project type: Commercial & Residential
Destination : Floor & Wall, general surfaces; including pool Applications Suitable
Outdoor use: down to -5°C

Description : Zellige is made from 100% natural clay exclusively extracted from Fez carriers, mold at approx. 11 x 11 x 1,2 cm, glazed and fired at approx. 900°C.

Fire resistance : Zellige is a non-combustible material and does not contribute to the spread of fire. Equivalent to Euroclass A1 (EN 13501-1) and ISO 1182 standards - non-flammable, no smoke emission, no dripping.

Technical Characteristics (indicative values)

Material	100% natural Fez clay (terracotta)
Origin	Morocco
Manufacturing	Kiln-fired (double firing in wood oven), hand cut, pre-assembled on rigid panels with Sika® Epoxy Glue
Finish	All colors are glazed, except *unglazed natural*
Density	1.8 - 2.0 g/cm³
Water absorption	8 - 12%
Breaking strength	≥ 800 N (eq. reference EN ISO 10545-4)
Frost resistance	Suitable For indoor & outdoor use down to -5°C

Environmental & Quality Information

Exclusively hand made with natural clay from carriers of Fez Morocco
Glazed with mineral pigments
Contains no VOCs, synthetic additives, or toxic materials
Non-flammable and non-toxic
Fully recyclable
Produced under the official Moroccan Label Zellige de Fès, certifying origin, composition & craftsmanship process

INSTALLATION AND USE

Surface Preparation

Ensure that all supports are healthy and clean, free of irregularities. For wet rooms (shower, basin...), waterproof the surface before tiling.

Zellige Preparation

Before laying, immerse each tile in the water for few minutes and then let them dry for about 15 minutes.

Pre-assembled panels : spray water on the back of the panel to slow down the setting glue.

«Edge to edge» Installation

No spacer ! All our zelliges must be placed «edge to edge» with a minimum possible grout to achieve a uniform, authentic surface after grouting.

Double bonding

Due to the uncalibrated thickness, we recommend double-gluing both support and back of the tile to ensure 10mn adhesive between panel and support.

Grouting

Use a very liquid grout all over the surface to fill all thin joints with it. After grouting, carefully clean the tiles to remove cement veil.

Maintenance

Enamelled zelliges don't require special precaution.

Outdoor & wet area will require a specific sealer with Lithofin anti-gliss or equivalent.
