The Froisser les Murs collection is a creation of Samir Mazer designed to bridge ancestral craftsmanship with modern architectural poetry.

The core creative intention is to challenge the perception of the wall as a flat, static surface, introducing movement, depth, and a sense of material tension.

Through a process of folding, bending, and distorting the surface, Mazer transforms the traditional zellige into a tactile composition of subtle reliefs and shifting planes, creating a dynamic interplay of light and shadow across the wall.

Ateliers Zelij accompagnies its clients to brings Mazer's
intimate world to each project.

With Froisser les Murs Collection, each model can be customized
and adapted to create a unique pattern that will reflect the
identity and vision of your project.

Reach out and tell us more about your project.
With your inspirations and all details, we will provide a fully
customized service.

DESIGN STUDIO**

Dfira
dim. 110 x 50 cm

Artwork is a collection that brings Mazer's intimate artistic world to life. Conceived as artworks rather than conventional surface designs, these pieces explore scale, composition, relief and materiality to create a stronger dialogue between art and architecture. Each work retains its singular character while allowing the language of the artwork to extend into space.

Ateliers Zelij accompagnies its clients to craft exclusive, design-led pieces tailored to each project, transforming concepts into exceptional spaces.
